#### PUSHING WORK ON NEW R. R.

Suwannee River and White Springs Railroad Will Soon Be Completed.

The Democrat has been reliably informed that arrangements have been perfected to extend the Suwannee River and White Springs railroad into White Springs, and that the work of grading the road is being pushed as fast as possible. W. L. Tedder, president of the road, stated a few days since that it would be completed into White Springs not later than the first day of next January, and a regular schedule of freight and passenger trains put on.

The length of this road—Live Oak to White Springs is about 18 miles. Work on it was commenced in this city a few months ago, and the road is now completed for a distance of about 9 miles—one-half the distance to White Springs—and trains are running over it daily. The work of completing the road on into White Springs will take but a short time.

This road, passes through a rich agricultural and timber section of the county that will be very much benefited. It will furnish facilities for the shipment of farm products and timber, and will add considerable to the desirability of that section as a place of residence, as well as to increase the value of all property in that section. Along the line of road it is very likely one or more towns will spring up.

This railroad will prove a good thing for both this city and our sister city—White Springs; making a connecting link between the G. S. & F. at White Springs and the Florida, Seaboard, Atlantic Coast Line and L. O. P. & G. roads in this city. It is claimed that this road will be the cause of a reduction being made to Live Oak merchants in freight rates from nearly all points north as means of reducing the mileage and hours in transit.

Railroads are great agencies in the development of a country and we believe this road will prove no exception to the general rule, and it promises also to be a paying investment for its progressive and enterprising owners.

Itching piles provoke profanity, but profanity won't cure them. Doan's Ointment cures itching, bleeding or protruding piles after years of suffering. At any drug store.

#### Sons and Daughters of Confederacy.

We are pleased to note that on last Thursday there was organized in our city a camp of united Sons of Confederate Veterans and also one of the Daughters.

The social feature engendered by such organizations is helpful to any community. Not only is the social feature good, but it is a patriotic move.

We hope that every son and daughter in the county will become a member and that the officers elected will push these organizations to the greatest possible success.

It is not the purpose of these organizations to engender hatred for our Northern brother, but we do wish to perpetuate the memory of the gallant heroes, our fathers, who sacrificed so much in blood and money, in the interest of a cause and privilege which we believe was right and which was as dear to them as their very life-blood.

The state organization, with its various camps of sons and daughters, could accomplish a great good by inaugurating a movement to have a true history of the Confederacy made a part of the curriculum in every school and college in the state.

We do not think it right that our children should be taught that our forefathers were rebels and traitors, and that by such teaching they should come to dishonor the memory of such gallant heroes and patriots as Lee, Jackson, Johnson, Davis and others—the greatest soldiers, the greatest statesmen and the truest patriots ever produced by this country or by any other.

"A SON."

#### School Opened Monday.

The Suwannee County High School opened Monday with a good attendance and very promising prospects for a successful term.

Prof. Edwards, principal, has the assistance of a full corps of trained and experienced teachers who will do their part to make the present term one of the best in the history of the school, and that is saying a great deal, for this school has for several years enjoyed the reputation of being one of the best in Florida.
